

G-4 → Game code for Jumping Game:

<https://www.youtube.com/watch?v=1jHvXakt1qw&list=PLrsH46EwyUzTLPPxG5jz0wgDkvPetxjOr&index=10>

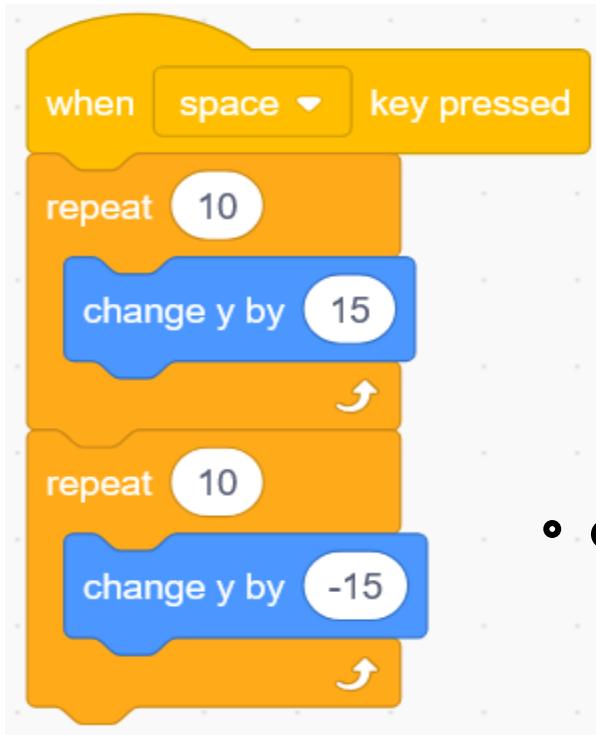

Code for the chick:

1. Set the position of the chick to be in the bottom left corner of stage

go to x: -180 y: -120

2. Make it jump on pressing space bar

The chick will take 15 small steps 10 times in upward and then downward direction

• • •
Think how can we add sound here???

```

when space key pressed
  start sound [Chirp v]
  repeat (10)
    change y by (15)
  end
  repeat (10)
    change y by (-15)
  end
when green flag clicked
  go to x: (-180) y: (-120)

```

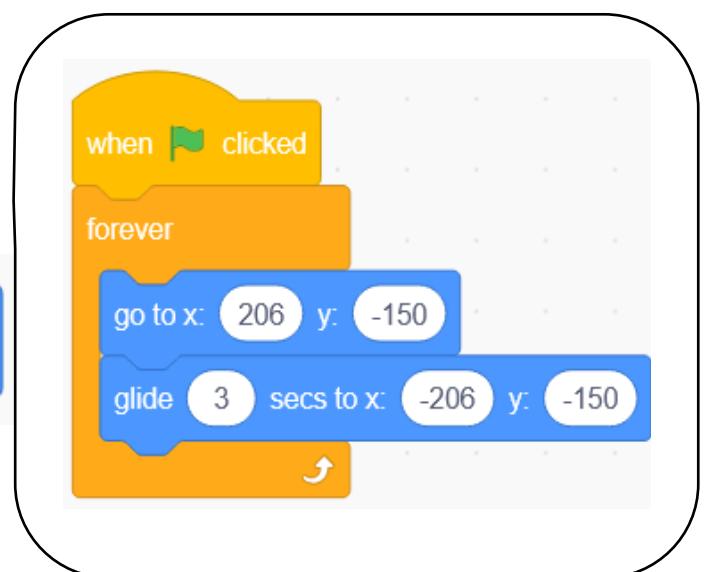

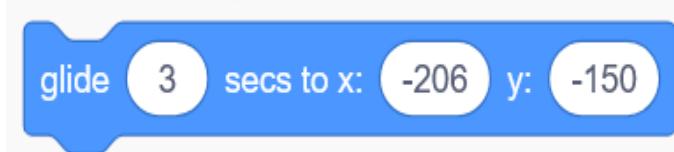

• • • Think how can we add score here???

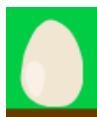

Code for the egg:

3. Place the egg in the bottom right corner of the stage to get the values of (x,y) axis

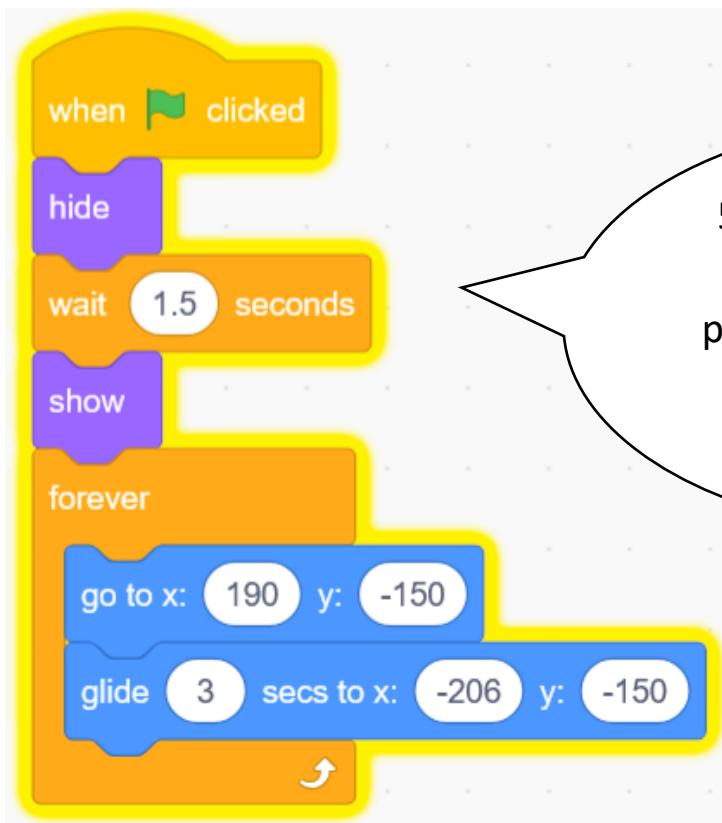

4. Glide the egg to towards the chick.

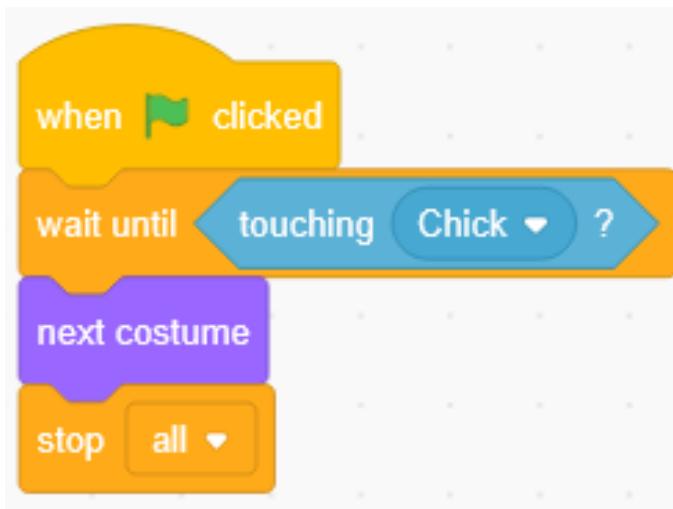

Code for the second egg:

5. To avoid overlapping of two eggs change the x position for the second egg and hide it in start and show it after a second

Code for both eggs (when chick touches the egg it will crack)

6. Change the costume from looks section and end the game if this happens
